Helping Kids Get & Keep Healthcare

5 Steps to Health Coverage with Help from Kids Health Link

Call 2-1-1

kidshealthlink.org • facebook.com/kidshealthlink

Free, expert help with these applications:

- AHCCCS
- Nutrition Assistance
- The Health Insurance Marketplace

1 **Call Kids Health Link (2-1-1).**
We'll assign you a **KHL** assistor in your area who also speaks your primary language.

2 Your **KHL** assistor will call to talk about the information and documents you need for the application that is right for your family.
With **KHL**, there's no need to take time off work to wait at a state office! Also, remember that a parent's Social Security number isn't needed for a child's AHCCCS application.

3 Using the AHCCCS online application, your **KHL** assistor will preview your family's healthcare coverage eligibility.
The state makes the final decision on coverage.

4 Your **KHL** assistor will submit your AHCCCS online application and the state will immediately confirm your children's medical coverage.
The state will notify you separately about other services, such as Nutrition Assistance.

5 **Questions or concerns about your coverage? Contact Kids Health Link.**

These steps can vary, but your **KHL** assistor will be with you every step of the way.
